## s. TIMOTHY, v. 17.

Let the Elders that rule well, be counted worthy of double honour, especially they who labour in Word and Doctrine.

the Church at Ephesus to the Charge of Timethy, a young Man, who could not be expected to have that Experience and Knowledge of his Office, as those of longer standing, and knowing how much depended upon the right Management of the same, writes this Epistle chiefly to direct him in that great and important Trust:—and that both in regard to the Doctrines in general He should insist upon, and the Government He ought to maintain over them; together with some particulars to be observed in reproving.

This was not only to be a Rule to Timothy; but to stand for the same Purpose, to all ordinary Ministers of the Gospel succeeding Him.

Although Timothy was to reprove, rebuke, as well as exhort with all Authority, yet it was to be done so as to answer the End: The greatest Prus dence was to be observed in the Management thereof. The Aged and fuch as were in any Office civil or ecclesiastical, were to be reproved with all due Difference to their Characters and Persons. v. 1. That fuch Widows as had distinguished themselves by their Piety, Charity and good Conduct, should be peculiarly regarded, and the same manifested by a fuitable Prevision made for them out of the Church Stock. v. 3.—6. A peculiar Care was to be taken that all the Officers of the Church be highly esteemed, in Proportion to the Dignity of their Office, but especially such as distinguished themselves by their Zeal and Industry.—Let the Elders that rule well.

This Character of Elder, equally belonged to civil as well as ecclefiaftical Officers, under the Old Testament, but is confined to the latter in the New. But as it is a general Character given to Officers in the Church; so it is not so easy to fix the Sense thereof in some places. Interpreters differ in their Judgement, what particular Office is defigned by To avoid giving several Conjecit in the Words. tures about it; the most Judicious agree that the Elder here first spoken of, is either a Person chosen by the Church to join and affift in the Government thereof, with the Elder last mentioned in the Text, who is not only to rule, but labour in Word and Doctrine. noventil

Dostrine; or else it is one and the same Person spoken of, by the different Branches of his Office : but the former appears most probable to me, from the Distinction between the one and the other: The first is to rule; the last to preach; as well as the Approbation and high Esteem he is worthy of in the faithful Discharge of his Trust. The same Word is used in the preceeding Part of this Epiffle He that ruleth well his own House. And we can't suppose the Manner would be approved of and commended, if the Matter was not instituted and appointed. Other Passages from Paul's Epiftles serve to confirm this Distinction; where the Apostle mentions several distinct Officers in the Church, and points out to each their respective Duties. The Teacher must attend upon his Office of Teaching; the Pastor in Exhortation; the Deacon nust give with Simplicity or Singleness; and the Elder must rule with Diligence: || The same Apostle peaks also, of Governments in his Epistle to the forinthians \* which seems to comprehend the ame Office, and Duty of it; for the Scope and Deign of the Apostle is the same as above. Thereore we understand the Office of the Elder first mentioned in our Text, is, to rule only; and upon is acquitting himself well in his place, his diligenty attending thereupon, and prudently managing herein, is greatly to be regarded.

THE Elder last mentioned in the Text, whose Business, as is agreed by all, is not only to rule in the Church, but to dispense the Word of God and Doctrines contained therein. Read, in the Original + here put for rule, properly fignifies that flands before, or over others.——It is a Mili. tary Term belonging to Officers in the Army, who are invested with Authority, March at the Head of their Troops, lead them on to Battle, animating their Men by their Example: Which agree very well with the Character of Church Officers, who are invested with Authority, whether they are called to Act in a more private or publick Capacity; fuch are to be Examples in their Live and Conversations - but especially Ministers, who are Commissioned from an high, and are over the Church in the Lord. What Examples of Patience, Prudence, Resolution and Holiness ought they to be? They are to March at the Head of Christ's Army through this Wilderness, and lead them on to fight the Battle of the Lord; they are by a noble Example, to inspire the Soldiers of Christ with Courage and Constancy, and not to be afraid of all the Forces that Hell or Earth can muster up against them. Thus the Apostle Pau was an excellent Example, of Zeal, Patience and Courage. - With what undaunted Resolution does he tet his Face towards Jerusalem; notwith standing the Bonds and Afflictions he forefaw await

Such as thus truly and faithfully Discharge their Office, are more worthy of Honour, or double Honour is to be given unto them, as being intrusted with a higher Office, and engaged in a more noble Work; and still in Proportion to their Zeal, Diligence and Industry in this great and important Work, is their Esteem to rise. The more they abound in Labours, the more abundant Respect and Honour is due to them from the Church. This smothy was to insist upon and publickly to inculate on the People of his Charge, as a Part of the Council of God, which He must declare.

11. What is presupposed in this Character of a Labourer in Word and Doctrine.

III. What is comprehended in the double Honour due to such.

1. THE first Proposition is, to open the Minister rial Labour. It appears at the first View, that a fervile Labour is not here intended, which has Relation only to temporal Things or Affairs of this Life, that at best are but mean and trifling when compared with those of another: But is a Labour that has more sublime Things in view, the immortal and eternal Interests of the Soul, Mans better Part, and that in order to its Happiness in this, and the future World; for it's a Labour in Word and Doctrine, i. e. in the Word of God and Doctrine contained therein; which in its own na-ture is spiritual, and the Delign thereof noble and excellent, even to bring Men into a State of Happiness in this Life, and a Perfection of Glory in the Life to come.

For a Minister to labour in the Word, emplies his searching into the rich Mines of these facred 0. racles, as for bid Treasure, that his Mind may be properly furnished with the Knowledge of these fublime Truths, -- That all his Doctrines, which serve for Reproof, Correction, Consolation, &C. may be drawn from this pure and facred Spring; and these he is to open, explain and inculcate upon his

However disagreeable such Doctrine may be to a secure and felf pleasing World, who cry Peace to themselves tho' they are not cleansed from their Iniquity; yet as they are clearly contained in the Word and manifest by Experience, therefore are they to be infifted upon, by every Gofpel Labourer, as part of the Council of God, which they are bound to declare, if they would approve themselves faithful and deliver their own Souls. And in order to fet Man's wretched Condition by Sin, in the most striking Light, the Law is to be preached, opened and explained in its Spirituality and Extent; not to induce Persons to trust in it for Righteousness, or expect Salvation in whole, or in part from their Obedience thereto; but that Sinners may be made sensible of the eternal Oblirels of wards gations they are under to the Law; that their them, numberless Transgressions of, Deviations from, en re and Defects of their Obedience to it, in Matter, Manner and End, may clearly appear, for by the Law is the Knowledge of Sin t and every Mouth knels, may be stoped and all the World become guilty before ne for God. The glorious Scheme and Method of Salvation, wherein Life and Immortality is brought to Light in the Gospel, through the Lord Jesus Christ, is to be fet before poor periffing Sinners, in all its Excellency; the Fulnefs, and Freenefs thereof, its Suitablenefs, and Sufficiency, for the vileft of Sinners. The Dignity of his Person being God Man, the Holiness of his Life, the Perfection of his Obedience, to the Precept of the Law, the Compleatness of the Sacrifice of that he offered up, in his Death, to remove the Penalty, || the full Satisfaction made thereby to divine Justice, fully answering every Demand of the Law. + His glorious Refurrection, as an incontestible Evidence of the compleat Redemption procured for Sinners. His willingness to save inners, which appears in the many Invitations given,

given, his Expostulations with, together with the precious Promises he has made of acceptance, upon their coming to him, is to be set before our Hearers. And we are to compel them to come in, by Arguments taken from the Offer and Invitations that Christ has made to Sinners in his Word---the ab. folute Necessity of Union with him, to be a Partaker of his Redemption --- and a thorough Change of Heart as well as Life, --- of being created a new in Christ Jesus in order to good works,-----of being holy, in order to be happy,----of glorifying God here, in order to be glorified with him hereafter, - and that they manifest their Faith by their Works, their Love to their Saviour, by keeping his Commandments, that all such as believe in him be careful to maintain good Works.

MINISTERS are to labour to feed the Flock of God, by the sincere Milk of the Word, and build them up in their holy Faith, by administering the sacred Ordinances of the Gospel unto them, Baptism, and the Lords Supper; that all the Graces of the Holy Spirit implanted in the Soul, may grow thereby.

2. ANOTHER Branch of the Ministerial Labour is to rule in the Church. This is evident from the Text.—And the Apostle in his Epistle to the Thessalonians joins it with this Character of Labourer, and exhorts to know them which labour among them, and were over them in the Lord. | The Wor

II. Prop. What is presupposed and implyed in this Character of a Labourer, in Word and Doctrine.

1. IT presupposes his call to this Work; for none ean be faid to be a Labourer together with, or for God, without he is called by Him into his Vine. yard: Would he not be justly looked upon as an intruder, who meddles himfelf with anothers Busness, without being called or invited thereto? And can we imagine that fuch who intermedles with, and thrust themselves into such a solema, awful and important trust without a proper Call, will be accepted of by the Lord of the Harvest! No, it will rather be asked of him, who bath required this at your hand. All the Characters given to Gospel Labourers, in the facred Oracles suppose it. They are called Stewards of the Mysteries of God Servants, Amb Jadors of Christ, Pasters, &c. He canno

Or any Act as an Ambassador for a Prince without being duly authorifed; or properly reprefent him from whom he never received a Commiffion? || Can he be said to reprove, rebuke, with an Authority which he never received? †----Therefore, fays the Apostle to the Hebrews, none taketh this Honour unto himself, but He that is called of God as was Aaron ‡ i. e. as truly called of God, though not so extraordinarly as Aaron was. All such as would approve themselves to God as workmen that ned not be ashamed, must come into God's Vineyard by the Door, otherwise he will be looked upon as a Thief and a Robber, \* as our Lord affirms. Without a Commission, they can't expect the Countenance of the great King and Head of the Church, nor Success in their Labour, much less a Reward at the End .--- I have not fent these Prophets, yet they medles ran, says the Lord, in Jeremiah, therefore they shall olemn, not profit this people at all \——There is something r Call, more to be looked to, by the Person, than a reguarvest! lar Introduction into this Office by the Presbytry; ath rehe ought to be satisfied in his own Mind, in regard given to His Call to undertake it: And if it be queried, uppole how shall such know whether they are called or of God not. c. But this brings me to mention another Thing presupposed in this Character of a Labourer in Word and Doctrine, which is,

2. Some proportionable Strength and Ability for his Work. As all servile Labour requires bodanger dily Strength, fo this Gospel Labour, a Power aint in or Ability according to the Nature thereof, which of the is spiritual truly, Mens sana in Corpore sana, a found Mind in a found Body, is required, in ortherefo der to go through with it effectually -- but especially spiritual Strength, for bodily Strength alone, profiteth little, for it is Strength in the inward Man, that is principally and mainly so necessary for the right Managament of this great Work. If private Christians have a Necessity of inward Strength, to enable them to ferve God and to bear up under the common Difficulties they are exposed to, for which the Apostle prayed in behalf of the Coloshans; | much more is it requisite, that Ministers should be endowed with it, whole Labour is so great, and Work so ardnous, who have not only their own Souls to take care of, but or thers. THE Judgement of this Labourer will appear, in dealing with Persons of different Genius's, Tempers, and Education,—adapting himself to them as will have the greatest Tendency to remove their Prejudices and do them good: As the Apostle, becoming all things to all, i. e. without Sin, that he may gain some.

And what Judgement and Skill is necessary in the other Branch of his Labour, namely Ruling that so it may be well, as in the Text, i. e. that it may answer the great End, for which it is designed; the Glory of God, the Good of the Church in general, and Advantage to the Person immediately concerned; in particular that it be so Edification and not for Destruction. O! how blessed is that Servant, whom his Lord, when he comether sold sind so doing.

It is not therefore a mere Comliment, or outward Ceremony, which is paid by Plow one to another, without any farther Regard, eins of mer to Person, or Office; and indeed often when ere is nothing less designed, than Honour or espect. — This double Honour implies,

For if a Minister once lose his Authority, among his People, his real usefulness among them, is like to be at an End.

3. This Honour supposes not only that we have a real Respect for him; but that we express the same by a respectful Carriage and Behaviour, both by Words and Action. Obadiah expressed himself with great reverence and respect to the Prophet Elijah----Fell on his Face, as the Manner of the Easterns was at that time, and still is, when they would manifest their Esteem for any Person. Advantage of them, but to promote their Salvation; watch for suitable Seasons to do them good; to warn against every thing that would ensure or hurt them. They watch, as those that must give an Account. There is therefore the greatest Reason that People should attend upon the Word publickly dispensed, with a suitable Temper and Disposition; believe and obey what is spoken, agreeable to Gods Word, which they are to reverence, as the Word of God. \*

As Disobedience casts Contempt upon the Miniftry, so obedience Honourit; hence the Apostle efteems the Theffalonians as his Crown, I and praised God, that although the Romans were Sinners, yet from the Heart they had obeyed that Form of Doctrine which was delivered unto them. || Nothing reflect more Honour upon Ministers, than to become spiritual Fathers to their People, the happy Instruments of turning them from darkness to light. + Hence the Apostle Paul, needed not Commendation to or from the Corinthians, for all, that heard or knew what has been done, by his Ministry, must be sufficiently certifyed, that God had crowned and bleffed his Labours among them; and fuch as obeyed, thro' Grace, from the Heart, were a sufficient Honour to him. evil Reports in order to blacken their Character, be cause of their bearing Testimony against their Sin; so we are to be cautious in crediting them, without sufficient Evidence: Not that the real Faults of Ministers are to be excused more then others, much less their vile and scandalous Practices covered or extenuated, by no means; for immoral and ungodly Ministers, do the greatest damage to Religion of any Men in the World, and are a great Curse to the People they are set over.

But it appears to be very ungenerous, as well as dishonourable, to dwell upon, and aggravate the Infirmities of Ministers; whose Lives and Conversations, in general, are becoming the Gospel. This tends to pour contempt upon their Ministry, and render them useless in the World; and is contrary to that Charity which hopeth all things and which should make us forbear severe Constructions of their Words and Actions.

FURTHERMORE, the Duty in the Text implies, a defending their Character and Person. No order of Men in the World, if truly faithful, are more exposed to unjust Reslections, and inviduous Aspersions, than they. They are often made the Song of the Drunkard, wicked and profane Witts will rack their Brains to lampoon them, and an ungodly World will traduce them as the yilest of Men. All

I am sensible, it is a very tender Point. nisters, as being a Party concerned, can hardly mention, much less insist upon it, without incurring the Censure of being Mercenary and Selfish; and I suppose this is one great Reason, it is no more infifted upon by them. I confess was there any other whose Place, or Office, would publickly admit them to do it, when Occasion called, it might be better taken by the World. But if it be part of the Council of God, then are we bound to declare it, as well as other Parts thereof, for we must declare the whole Council of God. +-- But if no part of it; then let it fall to the Ground This we shall therefore enquire into; and that it is fo, appears, from the first Epistle to the Corin thians, the ninth Chap. which I shall chiefly confine myself unto.

HERE the Apostle argues for it very strenuously. It is very remarkable, that when he might have laid it down, as the Command and Will of God, which doubtless, would have been sufficient to prove it a Duty; yet he chose to make it evident, from natural Principles and common fultice, as well as the Command of God. What gave Occasion to this Dissertation of the Apostle, upon

† Ad. 20, 27,

his Subject, was, very like, his not infifting upon his Right from them, for particular Reasons, which he affigns in the latter part of the Chapter, rom whence some might take Occasion to doubt of he Lawfulness of it, under the Gospel. The A postle therefore was resolved by incontestable Arruments, from Reason as well as Scriptures, to put t out of all doubt; and for ever ftop the Mouths of those that clamoured against it.

- 1. FROM Usage and their own Practice. They naintained other Ministers of the Gospel, why ot him? If others had a Right to be supported, nd their Families, on Account of their Labours mong them; furely he had the fame claim, and s good a Right, and more fo, upon the Account of his abundant Labours. This is the Scope of his easoning v. 3. 4. 5. 6. Surely, if Paul and the Ministers of that Day, had a Right to a Mainteance; why not Ministers in this Day? Must they ot eat and drink, as well as they? They cannot live pon the Air, more than other Men; they have o reason to expect to be miraculously supported, nore than others.
  - 2. HE makes it appear from the reason of Things. nd common Custom of Nations. All Men have a light to a Maintenance, from their common Emloyments or Callings. The Soldier has a Right pay, or a living from his King and Country; in whose Cause he ventures his Life, and for whose

Shepherds, that take care of and feed their Flocks, juffly expect to be clothed with the Wool and fed by the Milk. All these have a natural and equitable Right to a living, from their feveral Businesses, Labour, and Care v. 7. And shall Ministers, whose Employment and Office, which is far more excellent, in its own Nature, and of far greater Importance to the Children of Men, whose Labour is vastly greater, and whose Care and Concern far exceeds any worldly Employment, and whose warfare is barder? shall not they reasonably expect a Maintenance from those they labour among and for?

ANOTHER Argument the Apostle produces, is tual I from an ancient Law under the Old Testament, Thing that the Ox that treadeth out the Corn should not be pressed muzzled. || The original Defign of that Law, he to mal Thews was not for the Sake of Oxen; but was to not for teach the Children of Israel, the Equity and Just and re tice, that all Persons imployed in their Service, or bould any ways engaged in their Work, had a Right to good to be Partakers with them, in the Fruit of their Las to the bours. THE next Argument the Apostle advances to prove his Point; is from the Disproportion between the Things ministred and what they could expect to receive. They had fown spiritual Things. Opened and taught them the Way of Salvation, carneftly endeavoured, and truly laboured, that they might be Partakers of eternal Happiness: Whereas. all they were demanding, or could expect in lieus or return, at best, were but carnal Things; which served only for the Support of the Body in this Life: while they were devoting both Mind and Body, to their Service, v. 11. if we have fown to you spirices, is tual Things, is it a great Thing, if we reap your carnal ament, Things? It is not reasonable that one Man should be not be pressed under a load of care, burthen, and labour, w, he to make a Number of others intirely eafy. Who does was to not see the unequality of this? therefore is it just Just and reasonable, that he, that is taught in the Word. ice, or bould communicate to him that teacheth, in all ght to good things, according to the Apostles Injunction ir Las to the Galatians, || and those of whom we receive ing for piritual Things, should be retaliated in Toronto. piritual Things, should be retaliated in Tempopiritua als. † y read

THE

THE Apostle farther proves the right of Minifters Maintenance under the Gospel, from the Ordination and Appointment of God, respecting the Priesthood under the Old Testament; that such as Minister about holy Things, should live of the Things of the Temple. If God then established it, respecting the Priesthood and Tribe of Levi, as being fit and equitable; why not under the Gospel? There is the fame Reason for Substance for the one as for the other. The Reasons then were, -the Tribe of Levi was seperated from other Offices and secular Employments, whereby they might gain a living, their whole time devoted to the Service of the Sanctuary. || Are not Ministers now under the Gospel the fame, called off from all fecular Businels, devoted to the Service of the Church. And have not these as good a Right as they? though I do not fay, to the tenth; yet that the Ministry be sufficiently maintained, is as reasonable now, as under the Law, v. 13. This is the Form of the Apostles reasoning, and concludes, that the Lordbath as truly ordained, that they which preach the Gospel, should live of the Golpel. v. 14. This our Lord commanded, by forbidding his Disciples, when he sent them out to preach the Gospel, to provide any Thing for their Journey; thereby ordering the Persons they prea ched to, to provide for them; and the Reason as fligned was founded upon Justice; the Laboure was worthy of his bire; clearly shewing, if it wa Justic 281

Moreover does not God charge the Neglect of this Duty, under the Old Testament, upon the People, as one of their greatest Crimes? He calls it no less than Robery, not only of his Ministers, but ooks upon it as done to himself; will a Man rob God? yet ye have robbed me: But ye (ay, wheren have we robed thee? In Tithes and Offerings. le are cursed with a Curse: For ye have robed me even this whole Nation. || This Neglect was rectified with other Evils by Nehemiah. \* The Apostle urges this Duty upon the Galatians, least in Omission hey be found mocking God. # That however oning, hey might evade this Duty, by plausible predained, ences, and vain excuses, to deceive the Ministry, by of the withholding their Right; yet therein they should by fore found only deceiving their own Soulsout to Be not deceived, says the Apostle, God is not mocked, r their e. by filly Pretences to fet afide his own Appointy prea nent; or contradict the Rules of Justice and Equifon al Laboure

AGAIN,

AGAIN, are not Ministers bound by the Law of God, Nature, and Religion, to take care of, and provide for their Families, equally with others? This is laid down as a certain Truth by the A. postle, in his Epistle to Timothy, that if any provide not for his own, and especially for those of his own House, or Kindred, as it might be rendered, be bath denyed the Faith, and is worse than an Infidel. + Now if Ministers have not a sufficiency of their own, to live on, nor a suitable Maintenance afforded them, by the People for whom they Labour; nuft then must they be reduced to a dreadful Dilemma of finning. For as they have devoted themce, ti felves to God in the Work of the Ministry, they ce, the are not to entangle themselves with any secular calling, as the Apostle informs Timothy. No Man and the that warreth entangleth himself with the Affairs of therefore this Life. | That Ministers are meant here is deduced onclude from the Scope of the Context. Such are to give by who themselves to reading, ‡ and yet if they provide not for their House, they are worse than an Insidel. So This that, turn which way they will, in these Circum-ot on stances, they fin. Who does not see the Absurdity at an of this? Can we imagine, that a holy, just, and gra-od has cious God, should reduce Men, nay his own Ser- fry, fo vants, who bear his Commission, to such a dread a con ful Necessary of finning against himself?

Argument of the unlaw ulines of Ministers requiring a Maintenance under the Gospel. Supposing he did not take any thing; will it follow from thence that he had no Right to it? Granting he had Right to a Maintenance; it did not oblige him always to take it. It is one thing to have a lawful and just Right to a Thing, and not to infift up on it at a particular Time, from some People, for special Reasons; and another Thing, to have m sight at all; and therefore can't justly infift upon or claim it at any time. The former was the Cal with the Apostle; he took no Money from the Co rinthians for the Service he did them; because some ill-disposed Persons, would make a bad Us of it, and hinder the Success of the Gospel among them. But notwithstanding, he took none from them; yet in the fame Chapter, he lets then know, he had a Right toit, equally with any other of the Apostles. Have we not a Power, fay he, to eat and to drink. Have we not a Right, says he, to ad about a Sister, i. e. a Wise, as well as other sposses. ——Have we not power to forbear woring? Surely if he had a Right to a Family, which is Opponents could not gainsay, then he had a light to have a proportionable Maintenance herefor. If he had a Power to forbear working; e had a Right to, and Power to demand a living. What his Power was derived from, and the Foundation of this Claim, he speaks of in the following Verses in the same Chapter, † which have ten before considered.

IF Ministers have not a Right to a sufficient saintenance for their Family, as well as themselves, ney must either not Marry, have no Family, or be bliged to sollow some other Business to maintain heir Families. The former will lead us back to he old Popish Doctrine, which the Apostle calls a softrine of Devils; the later to the Neglect of his similarly, and so to the Breach of his trust. But in we suppose a holy God would reduce his Serants to such a Dilemma as this, so as to be obliged of sin upon the one hand or the other? Did not ar Lord give us an Example of what we have ten afferting, by his Family, i. e. his Disciples aintained by the Publick as before. But it is all time to come to the Improvement.

Some appear to have no Scheme of Doctrine, and therefore do they mangle Truth in a most dreadful Manner, and mingle it with Error. One can't guess what is their Design, or what they preach; whether Law or Gospel, sound or unsound, and if they happen to preach Truth, it is either unjuit. able or meerly speculative or superficial, that has no tendency either to awaken Sinners, or build up Saints in Faith and Holiness.
