FOREWORD TO 1950 VOLUME

Although the appearance in 1942 of the *Ministerial Directory of the Presbyterian Church in the United States, 1861-1941*, was awaited with keenest expectation, yet we were amazed at the place which this volume has filled. We continue to prize it as one of the most useful books upon our desks. Having known something of the difficulty of keeping up with Union Theological Seminary Alumni I have marveled at Dr. Scott's success in collecting the essential items relating to the large number of ministers of our Church during the first eighty years of her separate existence.

It was quite natural that in the initial publication of such a compendium there were mistakes regarding some of the ministers which could be pointed out and corrected by relatives, descendants or friends. This new edition, therefore, will be somewhat more accurate than its predecessor.

Repeatedly in the last few years those interested in younger ministers who were ordained subsequent to 1941 and therefore are not included in the original edition of the *Directory* have been disappointed and sometimes irritated when they could not discover essential facts regarding these men. It will be of great value to have these men included.

For these and other reasons it will be apparent to those who use this book how great is the debt owed to Dr. Scott for having first published and now revised this valuable *Directory*.

B. R. LACY, JR., *Moderator*.

Richmond, Va.
October 19, 1950

EXPLANATORY NOTE FOR THE 1950 VOLUME

Nearly nine years have passed since the publication of The Ministerial Directory. During this time some of the ministers whose sketches were given have passed away, while others have been received from other Churches or have been ordained. Most of those still living have made changes in their fields of labor. The present volume contains a record of all of these changes in the roll and in work.

There are two important differences between the former work and this compilation:

1. The sketches of those men who were known to have passed away at the time the former book was published are not reprinted in this volume. The name, page number, and the dates of birth and death are given. In numerous instances additional information has been secured for sketches of men in this group. This has been added; and, where errors have been discovered, corrections have been indicated by the use of italics.

2. The children of ministers have been added, not only in the sketches of men now living, but also, where obtainable, in the sketches of those who passed away many years ago.

Considerable research has been done, especially in the Historical Foundation at Montreat, N. C., in an effort to make this volume as complete as possible. In various ways the names of relatives of deceased ministers have been secured, and much information that was not obtainable for the former book has been secured through correspondence with them. Also there have been added the sketches of some ministers which did not appear in the former book because their names were not reported to the General Assembly.

I am greatly indebted to Rev. P. J. Garrison, Jr., Assistant Stated Clerk, for valuable assistance in the task of compiling the material, and in helping to put it in proper form for the printer.

It is impossible to list all who have been helpful in furnishing needed data, but I wish to mention a few who have shared with me much material which has been of great value: Miss Eugenia W. Lore, Concord, N. C., Dr. J. Gray McAllister, Dr. Walter L. Lingle, Dr. Franklin C. Talmadge, Rev. John C. Blackburn, Rev. Jas W. Marshall, Dr. B. A. McIlhany, Dr. Thos. H. Spence, Jr., Director of the Historical Foundation, and his able assistant, Miss Annie Bell Hill.

Considerable time has been required for completing the presswork on this volume, because of other commitments made by the printer. Naturally, changes have taken place which are not included in the sketches. In order to include every change reported to me up to the date of publication, a supplemental list of changes is carried in a section which follows the letter "Z."

E. C. SCOTT, *Stated Clerk.*

Atlanta, Ga.,
January 1, 1951

FOREWORD TO 1942 VOLUME

It is not inappropriate that the writer should ask for the privilege of inserting a little foreword in this important publication, which represents such a prodigious amount of work on the part of the Stated Clerk of the General Assembly, and which will be recognized as increasingly valuable as the days pass.

Some ten years ago, Dr. E. C. Scott, whom I have held in affectionate regard since his student days at Southwestern, was in my office, and we were discussing the great need of our Church for a Ministerial Directory. The only one in existence was the Ministerial Directory, edited by Dr. Edgar S. Robinson, published in 1898, listing the names of ministers in both the U. S. and U. S. A. Churches. Dr. Scott agreed that such a volume for our own Church was highly desirable, and said that, though he had little free time, he was willing to undertake the work of compilation, if the Assembly directed him to do it.

Under these circumstances the writer sent a communication to the 1933 General Assembly, suggesting that Dr. E. C. Scott be instructed to prepare a Ministerial Directory of our Church from its organization in 1861 to date. The Assembly acted favorably upon this suggestion, Dr. Scott went to work in earnest, and now after more than eight years of unremitting effort, the task is completed.

Unless one has had experience in getting out such a directory, he has no idea of the work involved, the patience and persistence required, the originality and bull-dog tenacity of purpose which the researcher must have to compel him to go far afield to get the necessary information. Think of trying to get an accurate sketch of more than six thousand ministers, covering a period of more than one hundred and fifty years, beginning with the latter part of the eighteenth century, and you will have some idea of the enormity of the task, as well as the value of this work. As some one has said of this volume of eight hundred pages, "It is not a compilation of uninteresting data, but a moving record of the sacrificial lives of servants of God."

No biographical catalogue was ever published that did not include some errors in its pages, and it is not to be supposed that this one will be the sole exception. However, Dr. Scott's well known and well merited reputation for the careful handling of statistical data is ample assurance that this finished work is as accurate as it is humanly possible to make it.

A publication of this kind is quite expensive. In apologetically explaining the comparatively low cost of this volume, Dr. Scott noted that the price included no profit, but merely covered the cost of preparing and publishing the material, since, as he said, his work was "done on Assembly time." It is quite true that no charge is included for the services of the Stated Clerk or his Secretary, but it is a bit euphemistic to say that the work was "done on Assembly time," unless that is supposed to include twenty-four hours each day and to exclude recreational activities, vacations, and some quiet hours with one's family and friends. The writer happens to know that Dr. Scott has through these years to a large extent

denied himself these normal amenities, in order to give to the Church this volume at the minimum cost, and to that degree both his family and friends have also made a real, if involuntary, contribution.

It would be an ungrateful Church that did not recognize this willing but sacrificial service on the part of its honored servant, and that did not in some way endeavor to express its appreciation. By a strange coincidence it happens that the man who initiated the movement for the Directory in 1933 is now in 1942, when the Directory comes from the press, Moderator of the General Assembly. It is this coincidence, together with my intimate relationship with the Scott family for a generation, which moves me to write this foreword, and to avow my belief that no church has ever had a more modest, more faithful, and more efficient Stated Clerk than the man who is now serving in that capacity in the Presbyterian Church in the U. S.

CHAS. E. DIEHL.

Southwestern, Memphis, Tennessee
February 2, 1942

EXPLANATORY NOTE TO 1942 VOLUME

This compilation of biographical material covering the lives of all ordained ministers who have served in the Presbyterian Church in the United States bears the imprimatur of the General Assembly, as will be seen by reference to page 26 of the 1933 Minutes. The compiler has striven earnestly to prevent errors but some will appear in spite of efforts to achieve accuracy. Gaps occur in some sketches because the source of information was unknown. Anyone who discovers errors, or who can supply missing data, is requested to communicate with the Stated Clerk of the General Assembly. Records will be kept in his office from which a revised edition of the Directory can be produced if and when the General Assembly orders its publication.

The use of abbreviations is necessary in a book of this kind. Were they not used, we would have a volume several times as large and set in type considerably smaller, thus making the price almost prohibitive for most of those who are greatly interested in such a work. A carefully prepared alphabetical list of abbreviations will be found in the back of the book, but those who refer to these pages with much frequency will soon become familiar with the standardized form and will need to consult the list only occasionally.

The semi-colon (;) separates the items in each sketch. Parentheses indicate varied service, either in irregular length of time with a group of churches, or teaching, editing, etc., while pastor or stated supply of a church or of a group. The phrases which occur most often are "in US Ch" and "in USA Ch". The former refers to the Presbyterian Church in the United States, popularly styled "The Southern Presbyterian Church"; while the latter refers to the Presbyterian Church in the United States of America.

In most instances, a single date following an educational institution indicates the year of graduation; however, accurate information could not always be secured. Where it is known that a minister did not graduate, the designation "stu" (student) is used.

It is to be understood that towns or cities which are not designated as to State are located in the State last-named.

Changes in fields of labor or in address have been included in the Directory through March 7, 1942, insofar as they have been reported officially.

In spite of urgent, repeated requests, there were a few ministers now on the roll of our Church who did not send the data on their lives. In all such cases sketches have been prepared from the statistical reports in the General Assembly Minutes, both U. S. and U. S. A. This is true also of some ministers once on our roll who are now in the Presbyterian Church, U. S. A.

The movements of a minister from one denomination to another are recorded in the sketches. In this way it is possible always to discover quickly in what denomination a minister served at a given time and for

how long. The complete sketch of every man is given even though he was on the roll of our Church for one year only. Where no denomination is designated it can be assumed that the record of service is in the Presbyterian Church, U. S.

No effort will be made here to recount the circumstances which led to the forming of the Presbyterian Church in the United States; however, a brief historical statement will be of interest. The Presbyterian Church in the Confederate States of America was organized in the First Presbyterian Church, Augusta, Ga., December 4, 1861. Previously, August 15-17, in that year, the Atlanta Convention had prepared the way for the General Assembly to meet, working out all necessary details. When the 1865 General Assembly met The Confederate States of America no longer existed. Therefore, it was necessary for the Church to select a new name. The choice of the General Assembly was "The Presbyterian Church in the United States." By this name it has been known ever since.

The following smaller bodies have united with the Presbyterian Church, U. S.:

- 1863 The Independent Presbyterian Church
- 1864 The United Synod of the South
- 1867 The Presbytery of Patapsco
The Alabama Presbytery of the Associate Reformed Synod
- 1869 The Synod of Kentucky
- 1874 The Synod of Missouri

It is impossible to make acknowledgement of all who have furnished data for this book. Considerable time was spent in research work in the Historical Foundation of the Presbyterian and Reformed Churches, Montreat, N. C. Dr. Thos. H. Spence, Jr., Curator, rendered valuable assistance in the preparation of a Bibliography which will be found in the back of the book.

E. C. SCOTT, *Stated Clerk.*
