Depos. 478.5 with Loring & Co.

Goldfinch tells me about Smith's
dealing with him. In Dec. last L.
gave him what purported to be invoice
of goods and for Exp, with 10% Com. chs.
Now another invoice of a new lot of
good. S. had been told to call for the
orig^l invoices. He did so & found differ
in some articles of 12% - in others more
in others, 25%. Thus L. tells him was his
profit and no Com. was to be charged
E. says there were coffee sacks charged in this inv.
thus without Comⁿ at same prices as in last with
Comⁿ. He don't think the thing can be nailed; he
wishes it'd one way or other made sure. He

asked L. to show him origl. invoice of
Dec. L. says the papers have been destroyed
by rats, or injur'd, so that he destroyed them - done
in Youngs store. He told L. he w^d rec. these
goods & pay for them, but never came any
more to do with him in bus.

decided their suspension did not hold.

charge of her receipts - that she has paid all

Archbp. has been reported of Sup. Court
to yield to its decision & restore the two
Canons, under penalty of banish^t
from the country. The press sustains
the Govt. So do those persons I meet
with; but in Parliam^t there is a good

deal of heat & controversy.

Atanton said, when I said bishops
had laid very heavy pen^t on the
Canons in suspending them for
their remonstrance, he had heard
Meneses had once as a lawyer
had a quarrel with Valdivieso & the
Cath^o had always return^d a good
reply that is not very apertotic.

Note for. Lu Lindes speaking of the
present investigation as "about the soust
trial of life".

Schoon wife & Leach came to
tea with us. I say the laws of

Chilean far better than those
of N. S. for sailors now.
That in America Captain can
get no redress from his men;
and if he strike a seaman he
suffers for it. We ask afterwards if
it were not - Caricature, I don't
think not.

Did not attend Lit. Assoc. tonight.

Weds. Oct. 29 - 1856.

Prof. G. just rode to Thomas
with Livier. Mr & Mrs Rowley
wanted us to remain to the just;
but came home. Looks pretty
thick.

Eg. prep. Lecture Isa. 40/31 - wait
on Lord, is looking to him with expect-
tation - from which flows service as
a token - Faith in God renews strength.
Thomson in Oriatic works. - in

Public Wp. - in effort for communion and
edification - in coming to the supper
more as a fruit of faith.

- while expectation brief, also the
order deepens sense of need.

At end I got confused - more than
I can hear - and having not a word
more to say had to stop.

Thurs. Dec. 30. 1856.

Robinson - Catv, we went to see
Porter about 2 Slavery girls - he out-
spoke our Spanish.

Catv on Prince about his sugar
with Lindy - F. L. brot Cory
samples - he likely one of Dutch
crust, ref - there was no gran-
ty opinion at all - when
came some barrels of sample
& bag of light - Bro. Havana.

But among these there were 3 bags of
new dist. refuse sugar. Sunday
in a note to the Com. acknowg^d there
were 6 bags double than the rest.

Bruce said S. tried to laugh it off
& that prob. he had hoped to get
the 3 bags along unnoticed, tho
he claim^d having paid same price
for all.

At Sing. met. church.

Simpson reported had seen Capt. Jas
Gardner - that Seymour said G. had
spoken with him on Sabbath, to engage
him as murrer, lying in his G's stone at
the time - & adding me to a glass of brandy
over it. When Simpson said, I that
he was a latotaller, Seymour answer^d
"I have often help^d him up hill at night
when scarcely able to go thro drink."

It was voted to Tent-off his case
2 mos. and let Simpson & Mac-

shall Com. to see him further.

Put by then to Lindsay's case -
Robt read certain copies prepared
by Mr S. - and then Comd reports
concerning him for want of straight-
forwardness & cautioning him for
future. I said it was nec. to be
thoro' or else the faults charged on
Mr S. wd come back on the Church.

Robt. mentioned invoice paid by man-
trudale for tools - made out "Lindsay to
come on in Glasgow" - whereas another
other invoice was sent by Gregory, Jun.
S., with sa. art. much less in price.
This seem'd to confirm charges of other
invoices being salted - and as Mr
S. said he wd move Mr S. be suspen-
ded - I drew up resolution re-
Committ'g the Cens. to same Com.
Williamson, Robinson & Marshall
& Ham. & report further - and in

mention he has suspended from
prac. duties & ch. membership. -
a. Livingston, said some while not
more proof - so it was "against him to
visit Jun. & c. Man^g. pass.

Got home 11 1/2 p. m.

Friday. Oc. 31. 1856.

At home all day - writing letters for
mail. Mr Cockhain wish^d S. Sch.
might be held elsewhere, bec. Mr C. had
rather not have it in his house, tho' fa-
vorable to such schools - & wish her
to go with him to Mr Dimmitt's in p. m.

I was to let Rob^t know.

Dr. Mr Lindsay came - had note from
Mr Washburn at action of church.
That it seems that effort made to
raise up nothing - spoke as if there
was other mot. - I said I was sure
there were no such mot. activities

the ch. - nor any one that.

He said he had done many - not him
straight forward. To not admit, at first,
having charged invoices - but afterwards
did, that had charged profits & then
commission, but said had been
no def. understanding that only Com.
to be charged.

I said that all his goods had been
very high to w. body - he said without
a Com. who not cover his risk. I
said, no matter, it contain an in-
surance & charge both. He finally
said he did not wish to complain

forms Educ. Soc. & try the
proprietor, and have sep. man-
agt. A. & D. laid great stress
on instance of indigent - car
for that alone.

I don't think now we can
raise the money except in
great measure and on ourse.

Then plan is let us own an
own of religion - Sec. Schools,
but not sectarian. They are sure
can raise 12,000 ff.

Mayor to present the matter
to Congregation

When I spoke of difficulty of raising
12 thous, as the uniting Church in
hand - they spoke up with courage
that that money (for ch.) was all
raised now.

I heard 10,000 was paid for land
2000 more 5 ff - Ch. edifice will cost
say 10,000 - if parsonage 7000 = 27,000
and if on this 12,000 more can be raised
so readily - by least it is gratifying.

I will fall in with this plan, if
I did not fear, lest in some future
time, we may be less strongly repres-
ented & be thrust aside.

Mr D. did not appear to approve
the means. He doubted the end of the

School for paupers Ch^{ch}; that it sh^d be
for indigent Ch^{ch} Chiefs; spoke of
Lington's as well conducted; & not
so for hyth's Education in it;
paupers & non paupers Scholars & act
be very practicable, yet admitt
thou were few schools any where that
had not some on chair, & w^o no
means cooperate only coalised; but
at other parts of ground instead of
this - a measure that w^o be need of
lower in Alexandria.

He took pains to tell Williams
he had nominated him on Coun-
cil in the Penn. Soc.

W^o came down this M^o. Thurbur

She denied & acknowledged - I
had done it with good motives
- & said the poor creatures to

doing it on Sunday, she said
They were in want of food and
I'd see them hungry. I told
her the real mo. was to make
money, and she'd see herself
and land & Dec. us. At one

then she gave way and said she
w^d rather give up her membership
in this Church, than^d be liable to
be so misused - that in
this Ch. there was so much ill
feeling. I told her the Church
had been kind to her. That
the Chileños had been more
kind than her own country
people. She desired that she
lent this money on pawn
with high interest (I think
at any at all). Tho' after
she admitt^d it was a media
a mo. on a dollar - This is
75% of a year. I suppose the
usual price is a real a
mo. I assure her the Ch.

felt great sorrow hearing
what she had done.

She at last agreed she would
do no more - tho it was
hard to get her to the point.

Fact is her husband's property
may be little or nothing by
the back way in which he put

Mon. Mar. 2, 57

Suzanne came to ask me to see and comfort her mo. who was troubled about affairs at the Hotel. Riche having got up all the debts at reduced price allows that a deduction of two Lafourcade, making Mrs Sarague gain for that course $\frac{1}{4}$ share in the Hotel to Mrs Laf. Both ladies own 6000 $\$$ separately - and the Lin a fine 8000. - He takes a mortgage for 20,000 of them jointly, and gives a receipt. to Mrs Laf. for 4000 (50% on the 8000). Thus Mrs Sar. becomes liable for Mrs Lafs. 6000.

I said that I had seen no more
- paper in my eye. R. that to
close all as bankrupt.

I advised to sell out if a
chance occurred to take a
small house of herself. She
spoke warmly & admiringly of
her husband.

I show great sympathy
with her mo.

Mrs Laf. had insisted on
having the keys to take Mo. &
mo. about in the house.

The Lar. disapprov. Laf. insisted &
Rich. sust. her.

I thank Mrs. Carr for
her letter.

Mr. Albert calls - polite -
asks for Mrs J. and Miss Kiddell.
Wife & I left him to converse
with his ward, and took an
dinner. Saw him again. He
thinks age and debts a great objection
to SRS. He told wife he admired the
simplicity of his daughter -
the nation friends said he had
thrown away his money.
He also said they could see.
He asks for his bell, and I

promis'd it for to mor.

Alice tells wife she told him she did not wish to return even to Balca.

When wife spoke of something that had been report'd to discredit school, he said "that is natly to what was told in Saena", implying at Mount and in other remarks his disapproval & disbelief of them: and you know (as I think he must) that Mabe was the author and spreader of them, he is too just. He'd not be if he acted on principles.

So too about Jefferson - he said you was good young man, doing well in bus. & with good prospects. But that is a strange way to speak of one that had made

the attempt he had to ruin his
own maid.

Mrs Marshall wishes us all
to come to Susanna's wedding;

at her hands under present

Friday, Mar. 13/57.

Wrote Mrs Marshall a letter calling
attention to her to Jane.

Mr. McLean to hand me 307 $\frac{1}{2}$
of Salary - 3rd pay. No 2nd Coin

w^d like to see me. I went - had
long conversation. She got James'
letter to her was insulting - M. M.
and Jas. got so too - and had read
her reply, ref. she sent it. She had
also sent for Poy and he had told
her he had said the things she told
James he had.

She said M. M. heard D. Poy say
to D. Petit that Allie had been injur'
by being allow'd to eat this bread & not.

She said if James' letter to her
was not meant to charge her
with contempt she w^d own she had
done wrong, that she desired peace
so much, that she w^d ask pardon or
make any apol. in her power.

She spoke of my not replying
James - that she had tried to make
him get with F. M. Marshall too.
I said Jas. seem'd to know
more about remedies, and

to use them more independently;
but that he seem'd hasty & said "nasty
alld" when he ought to prop.

I spoke of his relieving Emma
Wood, when Pap said I speak
aloud; and that he had found
what ailed Lovie: and that
in La. illness of my own I
remember that Mr Cotton said.

Teacher's meeting in evening.

Sat. Morn. 14. 1857.

Note Mrs M. says Jan had
not understood that Mr M. said
he had heard Dr Pap say that
about Alvis food to Petit - tho
if that had been understood,
it was no imputation of
his or her word to ask Dr Pap
if he said it or why.

I think now Mr & Mrs M. see
that they have been hasty, in

In letter to James, and seek to
make out a defence for her
letter. I took it and read it
aloud to them just, and ask
them what in it they ^{are} object to.

A note from Mrs M. to James

a cold withdrawal of her
letter, tho justifying her interpⁿ.

James letter went to day saying
she did not think Caroline

willing to accept even that. I
wrote that she had not done as
she promised to do. Mr Volles M.

both seem cold & distant.
Returned his back on me
just by. The service began & I
was afraid intentionally.
However I dont mean to do
anything that can warrant him
in feeling wrong done.

I presume, as Mrs M. speaks
of "flatest Contrad^{ns}" that she
was annoyed at James saying
that fruit had bent her Ch^l -
and then spoke too fast on a
subject on which none but the
most delicate attentions sh^d
have been made - even if there
had been cut any that the Ch^l
had suff^r from improper food.
James as she told her "Boone
that he careful but himself - that
she had best find that she had
lost her Ch^l from want of

case - that D. Page had told Pettit
Allan had had in. they would
to rat". How however good Co
intentions were she bid he write
in a most clumsy, wanton and
angry style.

Further when Jane wrote her
letter saying D. Page denied having
said so, she bec. angry at
that and wrote back a letter
and illustrated reply - justifying
it on an insult, which con-
structed out of James.

I incline to think that Jas.
"Mr James' friend", and D. Page
so far as they have said or
that any of these things about
Jona. & Allan have done at her
suggestion. Jas. I do not have
known much of the good given
to either of them from his own obs.

for he was not here. Few
friends knew what the Ch-
ild & rats. And Page has
repented & declared that he
had not thought even that
such cause exist for their
sickness.

Mr. W. remarks to me
that when I Jas. recom-
mending Jones. The blame of his
draft was cast on him: but
when I P. did same for Allan,
and in deed it was all right.

"may be not, probly that they are".

Found at Loring & Co. I have them about
3800 \$ County interest. Paying Moore

160 Aye Owes
50 Gas. ⁱⁿ special, in Bk. 8%
380 Deposit, special, in Bk. 8%
200 " open a/c " 6%
1290.-

This will pay Livingston for Building the
the house. But as salary has been
paid as due to mid. of May, and as 100
he has told that will use up 150, and
other items full 75 more, I shall have
to count on only 1000 toward Livingston a/c
at outside. Hence I must sell pine.

If I can do that however for
500 & int'g desk (wh. I have
concluded to part with 20 as to
lessee & it as much as maybe)
for 75 - I shall then be able to draw
down debt to Moore 250 or 300
dollars.

Inclined to think I had better part
with Bank shares. Will ask
Carrers' the prospect.

Blake came to see me today. He
said from remarks last viz-
that Blake was over so cordial
that persons saying things which are
propane before him I should
rehearse them; and that my sug-
gestion of greater cordiality to
new comers might lead B. men
to err in that respect. I told
him Blake did approve such
as in Bloomfield's case.

He then stated that he and his
wife had concluded again to
let a town for next year -
at year's end - that I should let
me know - grounds it most
on his side. I said I would not
decide for or against his
inf. here, the power he retained
among the young of P. School, &c
and I not soon attain to,
and his bus. as belonging

to the Lord Jesus, and affords
means for doing great good
here. He spoke of almost en-
suring those who c^d set apart a
gr. portion of their gains for
good. I urged him to seek to
know the way of duty & to his
best judgment, and then to ask God to
guide him & control him.

Thurs. Apr. 23. 57.

Mr. Haussen came today -
wish^d to know of the facts. I told
him list of case for. Begins. He ask^d
if Mr. S. was present at the final
action of the Ch. That he ought to have
been, since right of defence was
gone was better than any in writing.
I said he had met the Com. var.
times and had heard gain & again
as also gone; as well as heard in
writing. He still that it to be right^d he
not been call^d to say what he had
to say.

Mr. H. defended the Spent Ch. &
to Leach, on ground L. C. had taken
up the money; and ought to bear
the loss if there was any.

I told him of L^o Chazis, paper
3p - and that it was a com-
ment on Chazis & Leach.

Dr. showed the vouchers of
Ernst and Lozano & Co for the

11 1/4 per cent, on each advanced,
said Dupin when I said L. rep-
resented 10% as purchasing
Corn. in England. He named
2 1/2 p. ct.

He called the invoice of Mercantile,
charges 25% profits & mentioned the
charges, an "indiscution".

I replied that he called it very
mildly - for it was really "lie".

He was very much to see that in-
voice. I promised to try & get it.

He spoke of "what he wish'd to do in
matters" - of the letter perhaps read in
Lindsay, and hence difficult in
Paris as he wish'd.

I told him as a member of
the Church he had ought to do,
but that my wish was for his family
to save them from a mistake.

I said if he induced L. to
own his fault, it w'd be a great
good to his soul.

He complain'd of what he said
of the Ch. had said, as also

having interposed an obstacle
to his going about what he wish.

He said he had reach Egypt
that the Ch. had call him to go
for violating Sabbath. I said it
was no fault of the Ch.

sound to attain it - but that
no man could say "I have".
I do not know. That no one else could say
so of him. Hence could not be
